ALPHAGAZ MIX CH4 10%/AR

NOAL_1005 UFI: T9S2-00K9-400E-E2EM

Country : NO / Language : EN

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Trade name	: ALPHAGAZ MIX CH4 10%/AR
SDS no	: NOAL_1005
	UFI: T9S2-00K9-400E-E2EM
1.2. Relevant identifie	d uses of the substance or mixture and uses advised against
Relevant identified use	: Industrial and professional uses. Perform risk assessment prior to use.
	Industrial and professional use for chemical analysis, calibration, (routine) quality control
	laboratory use, under controlled conditions. Contact supplier for more information on uses.
Uses advised against	: Consumer use.
eese aaneea agamet	Uses other than those listed above are not supported, contact your supplier for more
	information on other uses.
1.3. Details of the sup	plier of the safety data sheet

Precautionary statements (CLP)		
- Prevention	 P210 - Keep away from heat, hot surfaces, sparks No smoking. 	, open flames and other ignition sources.
- Response	: P377 - Leaking gas fire: Do not extinguish, unless P381 - In case of leakage, eliminate all ignition so	
- Storage	: P403 - Store in a well-ventilated place.	
2.3. Other hazards		
	None.	
	Not classified as PBT or vPvB.	

The substance/mixture has no endocrine disrupting properties.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not established.

3.2. Mixtures

Name	Product identifier	Composition [V- %]:	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Argon	CAS-No.: 7440-37-1 EC-No.: 231-147-0 EC Index-No.: REACH-no: *1	90	Press. Gas (Comp.), H280
Methane	CAS-No.: 74-82-8 EC-No.: 200-812-7 EC Index-No.: 601-001-00-4 REACH-no: 01-2119474442-39	10	Flam. Gas 1A, H220 Press. Gas (Comp.), H280

Full text of H- and EUH-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

*1: Listed in Annex IV / V REACH, exempted from registration.

*3: Registration not required: Substance manufactured or imported < 1t/y.

SECTION 4: First aid measures

4.1. Description of first aid measures

- Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing
	stopped.
- Skin contact	: Adverse effects not expected from this product.
- Eye contact	: Adverse effects not expected from this product.
- Ingestion	: Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

See section 11.

4.3. Indication of any immediate medical attention and special treatment needed

None.

SECTION 5: Firefighting meas	sures	
5.1. Extinguishing media		
- Suitable extinguishing media	: Water spray or fog.	
 Unsuitable extinguishing media 	: Carbon dioxide.	
	Do not use water jet to extinguish.	
5.2. Special hazards arising from the	substance or mixture	
Specific hazards	: Exposure to fire may cause containers to rupture/exp	olode.
Hazardous combustion products	: Carbon monoxide.	
5.3. Advice for firefighters		
Specific methods	 Use fire control measures appropriate for the surrour radiation may cause gas receptacles to rupture. Cool spray jet from a protected position. Prevent water use sewers and drainage systems. If possible, stop flow of product. Use water spray or fog to knock down fire fumes if po Do not extinguish a leaking gas flame unless absolut re-ignition may occur. Extinguish any other fire. Move containers away from the fire area if this can be 	l endangered receptacles with water ed in emergency cases from entering ossible. ely necessary. Spontaneous/explosive e done without risk.
Special protective equipment for fire figh	 In confined space use self-contained breathing apparaist Standard protective clothing and equipment (Self Confighters. Standard EN 137 - Self-contained open-circuit compliance mask. Standard EN 469 - Protective clothing for firefighters. for firefighters. 	ntained Breathing Apparatus) for fire ressed air breathing apparatus with full

SECTION 6: Accidental release measures	s
----------------------------------------	---

6.1. Personal precautions, protective equipment a	nd emergency procedures
For non-emergency personnel	: Act in accordance with local emergency plan. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Stay upwind.
For emergency responders	See section 8 of the SDS for more information on personal protective equipment : See section 5.3 of the SDS for more information.
6.2. Environmental precautions	
	Try to stop release.
6.3. Methods and material for containment and cle	eaning up
	Ventilate area.

6.4. Reference to other sections

See also sections 8 and 13.

SECTION 7: Handling and stor	age	
7.1. Precautions for safe handling		
Safe use of the product	 Do not breathe gas. Avoid release of product into atmosphere. The product must be handled in accordance with good procedures. Only experienced and properly instructed persons should be complete gas system was (or is regularily Do not smoke while handling product. Use only properly specified equipment which is suita and temperature. Contact your gas supplier if in dout Avoid suck back of water, acid and alkalis. Assess the risk of potentially explosive atmospheres equipment. Purge air from system before introducing gas. Take precautionary measures against static discharg Keep away from ignition sources (including static disconsider the use of only non-sparking tools. 	nould handle gases under pressure. b) checked for leaks before use. ble for this product, its supply pressure ot. and the need for explosion-proof ge.
Safe handling of the gas receptacle	 Ensure equipment is adequately earthed. Refer to supplier's container handling instructions. Do not allow backfeed into the container. Protect containers from physical damage; do not dra When moving cylinders, even for short distances, use designed to transport cylinders. Leave valve protection caps in place until the contain wall or bench or placed in a container stand and is re If user experiences any difficulty operating valve disc Never attempt to repair or modify container valves or Damaged valves should be reported immediately to t Keep container valve outlets clean and free from con Replace valve outlet caps or plugs and container cap is disconnected from equipment. Close container valve after each use and when empt Never attempt to transfer gases from one cylinder/co Never use direct flame or electrical heating devices t Do not remove or deface labels provided by the supp of the container. Suck back of water into the container must be prever Open valve slowly to avoid pressure shock. 	e a cart (trolley, hand truck, etc.) her has been secured against either a eady for use. continue use and contact supplier. safety relief devices. the supplier. traminants particularly oil and water. os where supplied as soon as container cy, even if still connected to equipment. intainer to another. o raise the pressure of a container. blier for the identification of the content
7.2. Conditions for safe storage, inclu	ding any incompatibilities	
	Observe all regulations and local requirements regar Containers should not be stored in conditions likely to Container valve guards or caps should be in place. Containers should be stored in the vertical position a from falling over. Stored containers should be periodically checked for Keep container below 50°C in a well ventilated place	o encourage corrosion. nd properly secured to prevent them general condition and leakage.

Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

Segregate from oxidant gases and other oxidants in store.

All electrical equipment in the storage areas should be compatible with the risk of a potentially explosive atmosphere.

8.2. Exposure controls		
8.2.1. Appropriate engineering controls	3	
	Provide adequate general and local exhaust ven	tilation.
	Product to be handled in a closed system.	
	Systems under pressure should be regularily ch	-
	Ensure exposure is below occupational exposure Gas detectors should be used when flammable	
	Consider the use of a work permit system e.g. for	
8.2.2. Individual protection measures, e	e.g. personal protective equipment	
	A risk assessment should be conducted and doo	cumented in each work area to assess the
	risks related to the use of the product and to sele	
	The following recommendations should be consi	
- Two/face protection	PPE compliant to the recommended EN/ISO sta	ndards should be selected.
 Eye/face protection 	: Wear safety glasses with side shields. Standard EN 166 - Personal eye-protection - spe	ecifications
Skin protection		
- Hand protection	: Wear working gloves when handling gas contain	iers.
	Standard EN 388 - Protective gloves against me	
- Other	: Consider the use of flame resistant anti-static sa	
	Standard EN ISO 14116 - Limited flame spread	
	Standard EN 1149-5 - Protective clothing: Electr Wear safety shoes while handling containers.	ostatic properties.
	Standard EN ISO 20345 - Personal protective ed	guipment - Safety footwear.
 Respiratory protection 	: Gas filters may be used if all surrounding conditi	
	contaminant(s) and duration of use are known.	
	Use gas filters with full face mask, where exposu	-
	period, e.g. connecting or disconnecting contain Standard EN 137 - Self-contained open-circuit c	
	face mask.	ompressed an breathing apparatus with full
	When indicated by a risk assessment, Respirato	ry Protective Equipment must be used. The
	selection of the Respiratory Protective Device (F	RPD) must be based on known or
	anticipated exposure levels, the hazards of the p	product and the safe working limits of the
	selected RPD.	
	Recommended: Filter AX (brown).	201
	Gas filters do not protect against oxygen deficier	icy.

Thermal hazards

8.2.3. Environmental exposure controls

Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

Standard EN 14387 - Gas filter(s), combined filter(s) and standard EN136, full face masks . Self contained breathing apparatus is recommended, where unknown exposure may be

expected, e.g. during maintenance activities on installation systems.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
- Physical state at 20°C / 101.3kPa	: Gas
- Colour	: Colourless
Odour	: Odourless.
	Odour threshold is subjective and inadequate to warn of overexposure.
pH	: Not applicable for gases and gas mixtures.
Melting point / Freezing point	: Not applicable for gas mixtures.

: None in addition to the above sections.

Air Liquide

Oxidising properties

NOAL_1005 UFI: T9S2-00K9-400E-E2EM Country : NO / Language : EN

Boiling point	: Not applicable for gas mixtures.
Flash point	: Not applicable for gases and gas mixtures.
Flammability	: Extremely flammable gas
Explosive limits	: Flammability range not available.
Lower explosion limit	: Not available
Upper explosion limit	: Not available
Vapour pressure [20°C]	: Not applicable.
Vapour pressure [50°C]	: Not applicable.
Density	: Not applicable
Vapour density	: Not applicable for gases and gas mixtures.
Relative density, liquid (water=1)	: Not applicable
Relative density, gas (air=1)	: Heavier than air.
Water solubility	 Solubility in water of component(s) of the mixture : Argon: 67.3 mg/l Methane: 26 mg/l
Partition coefficient n-octanol/water (Log Kow)	: Not applicable for gas mixtures.
Auto-ignition temperature	: Not known.
Decomposition temperature	: Not applicable.
Viscosity, kinematic	: No reliable data available.
Particle characteristics	: Not applicable for gases and gas mixtures.
9.2. Other information	
9.2.1. Information with regard to physical hazar	rd classes
Explosive properties	: Not applicable.

 9.2.2. Other safety characteristics

 Molar mass
 : Not applicable for gas mixtures.

 Evaporation rate
 : Not applicable for gases and gas mixtures.

 Other data
 : Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.

: Not applicable.

SECTION 10: Stability and reactivity		
10.1. Reactivity		
	No reactivity hazard other than the effects described in sub-sections below.	
10.2. Chemical stability		
	Stable under normal conditions.	
10.3. Possibility of hazardous reactions		
	Can form explosive mixture with air. May react violently with oxidants.	
Reactivity :	This mixture contains components with the following reactivity : Can form explosive mixture with air. May react violently with oxidants.	
10.4. Conditions to avoid		
	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	
	Avoid moisture in installation systems.	
10.5. Incompatible materials		
	Air, Oxidisers. For additional information on compatibility refer to ISO 11114.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

44.4. Information on borond classes as defined in Demulstice (EQ) No. 4072/2000

11.1. Information on hazard classes as def	ined in Regulation (EC) No 1272/2008
Acute toxicity	: Toxicological effects not expected from this product if occupational exposure limit values are not exceeded.
Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas mixtures.
11.2. Information on other hazards	
Other information	: The substance/mixture has no endocrine disrupting properties.

SECTION 12: Ecological information

12.1.	Toxicity	
	-	

Assessment	: Classification criteria are not met.
EC50 48h - Daphnia magna [mg/l]	: No data available.
EC50 72h - Algae [mg/l]	: No data available.
LC50 96 h - Fish [mg/l]	: No data available.

Methane (74-82-8)		
EC50 48h - Daphnia magna [mg/l]	69.4 mg/l	
EC50 72h - Algae [mg/l]	19.4 mg/l	
LC50 96 h - Fish [mg/l]	147.5 mg/l	
12.2. Persistence and degradability		
Assessment	: No data available.	
12.3. Bioaccumulative potential		
Assessment	: No data available.	
<u>12.4. Mobility in soil</u>		
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.	
12.5. Results of PBT and vPvB assessment		
Assessment	: Not classified as PBT or vPvB.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU-Regulations

Listed on REACH Annex XVII (Restriction Conditions). The following restrictions are applicable:		
Reference code	Applicable on	
40.	ALPHAGAZ MIX CH4 10%/AR	
Restrictions or	s on use : None. Contains no substance(s) listed on the REACH Candidate List	

National legislation Seveso Directive : 2012/18/EU (Seveso III) : Ensure all national/local regulations are observed. : Covered.

National regulations

Ensure all national/local regulations are observed.
