Gasmixture 2-20%	NOAL_1032	
Albee Weld ArMix, Arcal MAG, Arcal Speed, Arcal 21,		Country : NO / Language : EN
Arcal Chrome, Arcal 14		

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Trade name	: Gasmixture 2-20% in Argon, Arcal Force, Arcal 5, Atal, Albee Weld ArMix, Arcal MAG, Arcal Speed, Arcal 21, Arcal Chrome, Arcal 14	
SDS no	NOAL_1032	
1.2. Relevant identified uses of the sub	stance or mixture and uses advised against	
Relevant identified uses Uses advised against	<ul> <li>Industrial and professional uses. Perform risk assessment prior to use. Industrial and professional use for chemical analysis, calibration, (routine) quality control, laboratory use, under controlled conditions. Contact supplier for more information on uses.</li> <li>Consumer use. Uses other than those listed above are not supported, contact your supplier for more information on other uses.</li> </ul>	
1.3. Details of the supplier of the safety	<u>/ data sheet</u>	
Company identification		
Supplier AIR LIQUIDE NORWAY AS Drammensveien 64 B 3050 Mjøndalen - NORWAY T + 47 32 27 41 40 info.norway@airliquide.com		
E-Mail address (competent person)	: eunordic-sds@airliquide.com	
1.4. Emergency telephone number		
Emergency telephone number	: 112 / Giftinformasjon: + 47 22 59 13 00 Availability (24 / 7)	
SECTION 2: Hazards identificat	tion	
2.1. Classification of the substance or I	mixture	
Classification according to Regulation	(EC) No. 1272/2008 [CLP]	
	pressure : Compressed gas H280	
2.2. Label elements		
Labelling according to Regulation (EC)	No. 1272/2008 [CLP]	
Hazard pictograms (CLP)	GHS04	
Signal word (CLD)		

Signal word (CLP) Hazard statements (CLP)

П

: Warning: H280 - Contains gas under pressure; may explode if heated.

## Gasmixture 2-20% in Argon, Arcal Force, Arcal 5, Atal, Albee Weld ArMix, Arcal MAG, Arcal Speed, Arcal 21, Arcal Chrome, Arcal 14

NOAL\_1032 Country : NO / Language : EN

Precautionary statements (CLP) - Storage

#### 2.3. Other hazards

: P403 - Store in a well-ventilated place.

Asphyxiant in high concentrations. In high concentrations CO2 causes rapid circulatory insufficiency even at normal levels of oxygen concentration. Symptoms are headache, nausea and vomiting, which may lead to unconsciousness and death. Not classified as PBT or vPvB. The substance/mixture has no endocrine disrupting properties.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not established.

#### 3.2. Mixtures

Name	Product identifier	Composition [V- %]:	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Argon	CAS-No.: 7440-37-1 EC-No.: 231-147-0 EC Index-No.: REACH-no: *1	80	Press. Gas (Comp.), H280
Carbon dioxide	CAS-No.: 124-38-9 EC-No.: 204-696-9 EC Index-No.: REACH-no: *1	20	Press. Gas (Liq.), H280

Full text of H- and EUH-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

\*1: Listed in Annex IV / V REACH, exempted from registration.

\*3: Registration not required: Substance manufactured or imported < 1t/y.

### SECTION 4: First aid measures

### 4.1. Description of first aid measures

- Inhalation	<ul> <li>Allow affected person to breathe fresh air.</li> <li>Allow the victim to rest.</li> <li>Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.</li> </ul>
- Skin contact	<ul> <li>Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.</li> </ul>
- Eye contact	: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persists.
- Ingestion	: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Ingestion is not considered a potential route of exposure.

## Gasmixture 2-20% in Argon, Arcal Force, Arcal 5, Atal, Albee Weld ArMix, Arcal MAG, Arcal Speed, Arcal 21, Arcal Chrome, Arcal 14

NOAL\_1032 Country : NO / Language : EN

### 4.2. Most important symptoms and effects, both acute and delayed

In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. See section 11.

### 4.3. Indication of any immediate medical attention and special treatment needed

None.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

- Suitable extinguishing media - Unsuitable extinguishing media	<ul> <li>Foam.</li> <li>Dry powder.</li> <li>Carbon dioxide.</li> <li>Water spray.</li> <li>Sand.</li> <li>Product does not burn, use fire control measures appropriate for the surrounding fire.</li> <li>Do not use a heavy water stream.</li> <li>Do not use water jet to extinguish.</li> </ul>
5.2. Special hazards arising from the substance	e or mixture
Specific hazards Hazardous combustion products	: Exposure to fire may cause containers to rupture/explode. : None.
5.3. Advice for firefighters	
Specific methods Special protective equipment for fire fighters	<ul> <li>Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems.</li> <li>If possible, stop flow of product.</li> <li>Use water spray or fog to knock down fire fumes if possible.</li> <li>Move containers away from the fire area if this can be done without risk.</li> <li>In confined space use self-contained breathing apparatus.</li> <li>Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire fighters.</li> <li>Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.</li> <li>Standard EN 469 - Protective clothing for firefighters. Standard - EN 659: Protective gloves for firefighters.</li> </ul>

### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	: Act in accordance with local emergency plan.
	Evacuate unnecessary personnel
	Try to stop release.
	Evacuate area.
	Ensure adequate air ventilation.
	Prevent from entering sewers, basements and workpits, or any place where its
	accumulation can be dangerous.
	Stay upwind.
	See section 8 of the SDS for more information on personal protective equipment

8.2. Exposure controls

#### 8.2.1. Appropriate engineering controls

	Provide adequate general and local exhaust ventilation.
	Systems under pressure should be regularily checked for leakages.
	Ensure exposure is below occupational exposure limits (where available).
	Oxygen detectors should be used when asphyxiating gases may be released.
	Consider the use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. pers	sonal protective equipment
	A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.
Eye/face protection	: Chemical goggles or safety glasses.
	Standard EN 166 - Personal eye-protection - specifications.
Skin protection	
- Hand protection	: Wear working gloves when handling gas containers. Wear protective gloves.
	Standard EN 388 - Protective gloves against mechanical risk, performance level 1 or higher.
- Other	: Do not eat, drink or smoke during use.
	Wear safety shoes while handling containers.
Respiratory protection	<ul> <li>Standard EN ISO 20345 - Personal protective equipment - Safety footwear.</li> <li>Gas filters may be used if all surrounding conditions e.g. type and concentration of the contaminant(s) and duration of use are known.</li> <li>Wear appropriate mask.</li> </ul>
	Use gas filters with full face mask, where exposure limits may be exceeded for a short-term period, e.g. connecting or disconnecting containers.
	Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
	When indicated by a risk assessment, Respiratory Protective Equipment must be used. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the
	selected RPD.
	Gas filters do not protect against oxygen deficiency.
	Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres.
	Standard EN 14387 - Gas filter(s), combined filter(s) and standard EN136, full face masks . Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems.
Thermal hazards	: None in addition to the above sections.
8.2.3. Environmental exposure controls	

None necessary.

### **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

Appearance - Physical state at 20°C / 101.3kPa	: Gas
- Colour	: Colourless
Odour	: characteristic
	Odour threshold is subjective and inadequate to warn of overexposure.
pH	: Not applicable for gases and gas mixtures.
Melting point / Freezing point	: Not applicable for gas mixtures.
Boiling point	: Not applicable for gas mixtures.

Flammability Explosive limits : Non flammable. Lower explosion limit Not available : Not available Upper explosion limit Vapour pressure [20°C] : Not applicable. Vapour pressure [50°C] : Not applicable. Density Not applicable Vapour density Not applicable for gases and gas mixtures. : Relative density, liquid (water=1) Not applicable : Relative density, gas (air=1) : Heavier than air. Water solubility Solubility in water of component(s) of the mixture : • Argon: 67.3 mg/l • Carbon dioxide: 2000 mg/l Completely soluble. Partition coefficient n-octanol/water (Log Kow) : Not applicable for gas mixtures. Auto-ignition temperature Non flammable. Decomposition temperature : Not applicable. Viscosity, kinematic : No reliable data available. Particle characteristics : Not applicable for gases and gas mixtures. 9.2. Other information 9.2.1. Information with regard to physical hazard classes Explosive properties : Not applicable. Oxidising properties : Not applicable.

#### 9.2.2. Other safety characteristics

Molar mass: Not applicable for gas mixtures.Evaporation rate: Not applicable for gases and gas mixtures.Other data: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below<br/>ground level.

SECTION 10: Stability and reactivity	
<u>10.1. Reactivity</u>	
	No reactivity hazard other than the effects described in sub-sections below.
10.2. Chemical stability	
	Not established.
10.3. Possibility of hazardous reactions	
	None under normal use.
Reactivity	: None.
10.4. Conditions to avoid	
	Avoid moisture in installation systems.
10.5. Incompatible materials	
	For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	
	fume.
	Carbon monoxide.
	Carbon dioxide.

### **SECTION 11: Toxicological information**

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity	<ul> <li>Toxicological effects not expected from this product if occupational exposure limit values are not exceeded.</li> <li>Unlike simple asphyxiants, carbon dioxide has the ability to cause death even when normal oxygen levels (20-21%) are maintained. 5% CO2 has been found to act synergistically to increase the toxicity of certain other gases (CO, NO2). CO2 has been shown to enhance the production of carboxy- or met-hemoglobin by these gases possibly due to carbon dioxide's stimulatory effects on the respiratory and circulatory systems.</li> <li>For more information, see 'EIGA Safety Info 24: Carbon Dioxide, Physiological Hazards' at www.eiga.eu.</li> </ul>
Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: No known effects from this product.
STOT-single exposure	: No known effects from this product.
STOT-repeated exposure	: No known effects from this product.
Aspiration hazard	: Not applicable for gases and gas mixtures.
11.2. Information on other hazards	
Potential adverse human health effects and symptoms	: Based on available data, the classification criteria are not met.
Other information	<ul> <li>For more information, see 'EIGA Safety Info 24: Carbon Dioxide, Physiological Hazards' at www.eiga.eu.</li> <li>Unlike simple asphyxiants, carbon dioxide has the ability to cause death even when normal oxygen levels (20-21%) are maintained. 5% CO2 has been found to act synergistically to increase the toxicity of certain other gases (CO, NO2). CO2 has been shown to enhance the production of carboxy- or met-hemoglobin by these gases possibly due to carbon dioxide the adjuster extension.</li> </ul>

dioxide's stimulatory effects on the respiratory and circulatory systems. The substance/mixture has no endocrine disrupting properties.

### **SECTION 12: Ecological information**

<u>12.1. Toxicity</u>	
Assessment	: No ecological damage caused by this product.
EC50 48h - Daphnia magna [mg/l]	: No data available.
EC50 72h - Algae [mg/l]	: No data available.
LC50 96 h - Fish [mg/l]	: No data available.
12.2. Persistence and degradability	
Assessment	: Not established.
12.3. Bioaccumulative potential	
Assessment	: Not established.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.

# SAFETY DATA SHEET

Page : 16/16 Revised edition no : 3.0

Revision date : 2023-01-23

Supersedes version of : 2020-07-24

# Gasmixture 2-20% in Argon, Arcal Force, Arcal 5, Atal, Albee Weld ArMix, Arcal MAG, Arcal Speed, Arcal 21, Arcal Chrome, Arcal 14

NOAL 1032 Country : NO / Language : EN

Further information

: Classification using data from databases maintained by the European Industrial Gases Association (EIGA). Data is maintained in EIGA doc 169 : 'Classification and Labelling Guide', downloadable at : http://www.eiga.eu. Classification in accordance with the procedures and calculation methods of Regulation (EC) 1272/2008 (CLP).

### Full text of H- and EUH-statements H280 Contains gas under pressure; may explode if heated. Press. Gas (Comp.) Gases under pressure : Compressed gas Press. Gas (Liq.) Gases under pressure : Liquefied gas

DISCLAIMER OF LIABILITY

: Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Details given in this document are believed to be correct at the time of going to press. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
